

Assistant Director for Operations

5 May 1948

Acting Chief, FBIB

Addendum to FBIB Progress Report for April 1948

II. 5. Two evaluation surveys were made, one on the a a (European Daily Roundup) Section of the Restricted Daily Report, and the other on FBIB Special Reports. In both cases the results were complimentary, and it was apparent that favorable remarks were based on careful and continuous scrutiny of the reports.

Reference the Daily Roundup, principal users recommended continuance in its present form even at the expense of increased full text copy. Reference Special Reports, all survey agencies rated them valuable and higher. The Office of Special Operations remarked, "Extremely valuable. In one case FBIB special reports saved OSO an estimated \$25,000 by verifying its suspicions concerning certain overseas reports."

Several offices, notably ONI, requested graphic presentation of quantitative data concerning propaganda trends and emphasis.

Monthly Progress Report for April, 1948

The procedure for handling numbered collection requests was revised and a standard operating procedure was put into effect. It is believed that this will minimize errors and oversights and result in quicker and more efficient service on CDs.

During April several surveys were conducted on various aspects of the FBIB operation. These surveys were designed to increase the service of FBIB to U. S. Government intelligence agencies.
